Augusta, ME 04333-0028

January 13, 2012

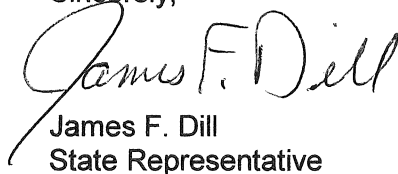

Dear Board of Pesticides Control Members:

In early October we attended a Board of Pesticides Control (BPC) meeting to discuss developing a new pesticide notification registry, which we (Representatives Dill and Timberlake) both believe is needed. At that meeting it was our belief that a vote was taken to allow the BPC to work with us on developing a new registry that would be vetted to stakeholders with their input before any rule or legislation would be promulgated.

However, it has since come to our attention that this discussion/request should be put forth to the BPC more formally by putting the request in writing. By way of this letter we are requesting that the BPC staff be allowed or directed, as the case may be, to work with us on the development of said registry.

Thank you in advance for your consideration of this request.

Sincerely,

James F. Dill
State Representative
